CIS363B ♦- Week2 Lab Remember this! Connect to the iLabhere. Week 2: Working with Fonts, Colors, and Graphics ♦- iLab Print This Page  
iLab: Web Page Design Submit your assignment to the Web server. (See Syllabus/"Due Dates for Assignments & Exams" for due dates.) i L A B O  
V E R V I E W Scenario/Summary Complete Case Problem 1 found on pages 163♦-165 of your book. Deliverables When you finish entering and  
checking your code, create a folder in your root Web folder and name it Week 2. Create another folder named LAB1. In this folder, submit all your  
files for this week's lab. Be sure to check your work from the website in your browser. For archival purposes, zip up all the website files and upload  
them to the Weekly Dropbox. For instructions on how to use the Dropbox, read these Step-by-Step Instructions or watch this Tutorial icon Dropbox  
Tutorial. i L A B S T E P S STEP 1: Follow all the directions in your book. Instead of completing task 16 in your book, upload the completed  
website to the Citrix Devry Web Server-> Step-By-Step Instructions for using Websol . Be sure to include any graphics used in your website. Once  
you have uploaded your website, type the URL for your website into your browser and check to make sure each required task works from the  
server.
